Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of a reply to the previous Office Action, filed July 24, 2008. Claims 1, 2, 4, 5 and 7-33 are pending and under consideration in the instant application. Any rejection of record in the previous Office Action, mailed June 1, 2007 that is not addressed in this action has been withdrawn.

Because this Office Action only maintains rejections set forth in the previous Office Action and/or sets forth new rejections that are necessitated by amendment, this Office Action is made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 4, 5 and 7-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. This is a new rejection necessitated by amendment.

In claim 1, it is unclear whether a lipase gene is cloned into a vector already containing another lipase gene, or if the lipase gene is being introduced into a vector without a lipase gene already present. For purposes of examination, the Examiner is assuming the latter.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-6 and 8, 9 stand rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,020,180 in view of Kim et al.

Claim 2 stands rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,020,180 in view of Kim et al and in further view of Uppenberg et al.

These rejections are maintained for reasons of record.

Response to Arguments Concerning Claim Rejections – 35 USC § 103 (a)

Applicants' arguments filed on July 24, 2008 have been fully considered. The following grounds of traversal are presented:

Applicants have filed a certified translation of the Korean priority document, and therefore entitled to the benefit of the September 13, 2002 priority date. Kim et al was published after this date and does not constitute prior art. Furthermore, US 6, 020,180 does not teach nor suggest a method for expressing a lipase on the surface of host cells using a surface expression system. Uppenberg does not cure the deficiencies of US 6, 020,180.

Applicants' arguments have not been found persuasive for the following reasons.

Kim et al was published online on August 29, 2002, therefore published before Applicants' priority date. Together Kim et al and US 6, 020,180 teach a method for expressing a lipase on the surface of host cells using a surface expression system as discussed in the 35 USC 103(a) rejection in the prior action. There are no deficiencies to cure.

Allowable Subject Matter

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
